	system (USIT304)	2. To study PL / SQL basics programs.	2. In lab session students study use of SQL statements, Manipulating data, creating and managing tables. 3. Able to perform PL/SQL basics programs.
S. Y. B. Sc IT	Applied Mathematics (USIT305)	1. To introduce mathematics and applications in the area of applied mathematics. 2. To study matrices ,complex numbers problems.	1. Able to solve matrices ,complex numbers problems. 2. Students able to solve problems in lap-lace transformation and multiple integrals.
S. Y. B. Sc IT	Mobile Programming (USIT3P5)	1. To introduce mobile programming concepts. 2. To learn mobile programming applications.	1. In this course students gain knowledge of HTML5, CSS, CORDOVA and Phone GAP API.
S. Y. B. Sc IT Semester-IV	Core Java (USIT401 USIT4P1)	1. To study java programs, java applications. 2. In lab session students learn database programming using java.	1. Student study java programs, java applications, its architecture and components ,event handling concept. 2. Able to learn database programming using java. 3. Study web development concept using serve let and JSP learn Socket programming concept.
S. Y. B. Sc IT	Introduction To Embedded Systems (USIT 402 USIT4P2)	1. To study Embedded system and its applications. 2. To learn 8051 micro controllers and real time operating system. 3. To learn different design platforms used for an embedded system.	1. Student gain knowledge of embedded system, its application. 2. Students able to describe 8051 micro controllers and RTOS system. 3. In practical session student performs programming in c and c++.
S. Y. B. Sc IT	Computer Oriented Statistical Techniques (USIT403 USIT4P3)	1. To study fundamental of statistics like mean, mode, standard deviation. 2. To learn the concepts like statistical decision Theory, small sampling theory, curve fitting.	1. Able to learn the fundamental of statistics like mean ,mode, standard deviation etc. 2. Learn statistical decision Theory, small sampling theory, curve fitting.
S. Y. B. Sc IT	Software Engineering (USIT404 USIT4P4)	1. To learn the concepts of software engineering. 2. To learn software development process model. 3. To learn implementation of software design.	1. Able to understand software engineering. 2. Gain knowledge of software development process model. 3. In lab session able to study and implement software design.
S. Y. B. Sc IT	Computer Graphics & Animation (USIT405 USIT4P5)	1. To learn concepts of Computer Graphics. 2. To learn computer animation. 3. To learn Implementation of graphics algorithm in c++.	1. To understand concepts of Computer Graphics by creating open GL program including 3D transformation object modeling etc. 2. Able to learn computer animation. 3. In lab session students Implemented graphics algorithm in

T. Y. B. Sc IT	Advanced Web Programming (USIT 503)	<ol style="list-style-type: none"> 1. To learn Net framework, c#,Vb and Net languages. 2. Learn to caret web forms and control. 3. To gain the skills and project based experience. 	<ol style="list-style-type: none"> 1. Able to work with .Net framework ,c#,Vb and .Net languages. 2. Gain knowledge of ADO. Net, ASP. NET, AJAX, XML. 3. To gain the skills and project based experience needed for entry into web application and development careers. 4. Able to work with Web forms and controls
T. Y. B. Sc IT	Linux System Administration (USIT 504)	<ol style="list-style-type: none"> 1. To study Linux system administration tasks. 2. To learn configuring web server,DNS server, DHCP server. 	<ol style="list-style-type: none"> 1. Study Red Hat Linux networking and system administration. 2. In lab session students gain knowledge of configuring Apache server on Red Hat Enterprise Linux, Setting up an installation server, configuring DHCP and DNS.
T. Y. B. Sc IT	Next Generation Technologies (USIT 507)	<ol style="list-style-type: none"> 1. To study information related to Big Data and MongoDB. 2. To understand and learn J query, SSD and in –memory database. 3. To obtain data about JSON and its function. 	<ol style="list-style-type: none"> 1. Able to discover and analyze information, Big-data challenges and procedures. 2. Study the economics of disk SSD - enabled databases,Ajax with J query, j Query plug-ins. 3. Students able to learn J son Grammar,JSON object, JSON PHP, JSON HTML, JSONP.
T. Y. B. Sc IT Semester-V	Software Quality Assurance (USIT 601)	<ol style="list-style-type: none"> 1. To study software quality, fundamentals of testing, techniques and tools. 2. To study software verification and validation. 	<ol style="list-style-type: none"> 1. Able to understand software quality, fundamentals of testing ,techniques and tools. 2. In lab session students gain knowledge of implementation of project.
T. Y. B. Sc IT	Security in Computing (USIT 602)	<ol style="list-style-type: none"> 1. To understand information security,Risk analysis and secure design principles. 2. To learn intrusion detection and prevention system. 3. To understand working of virtual machines and cloud computing. 	<ol style="list-style-type: none"> 1. Students study Information security,virtual machines and cloud computing. 2. In practical session student learn to configure routers and firewalls, ASA basic settings and firewall using CLI.
T. Y. B. Sc IT	Business Intelligence (USIT 603)	<ol style="list-style-type: none"> 1. To study Business intelligence architecture and applications. 2. To learn concept of artificial intelligence and expert systems. 	<ol style="list-style-type: none"> 1. Gain knowledge of Business Intelligence and its applications, artificial Intelligence and Expert system. 2. In the lab session student gain

Programme, Course, Course Objectives & Course Outcomes

		<p>the power of resistance of Indian culture- to instil the values and the rich tradition of India into the minds of the students. Familiarize some of the eminent writers in Hindi literature and thereby inculcate socio-cultural values.</p> <p>6. To impart skills to critically evaluate and appreciate literary works, to extend this ability to other cultural and artistic forms.</p>	<p>and downtrodden among the society.</p> <p>9. To make them able to communicate in Hindi fluently so that they can perform their duties better when they are outside Maharashtra.</p> <p>10. To train them in the fields of journalism and media writing so that they can choose them as a professional option.</p> <p>11. To give them training in correspondence and secretarial practice in Hindi so that they can use the knowledge whenever necessary.</p>
M. A. II Hindi	Hindi	<p>1. To familiarize the students with various trends in Hindi literature and Understanding the literary trends and works in a different way.</p> <p>2. Learn Hindi for effective communication in different fields like administration, media and business.</p> <p>3. Understanding translation as a linguistic, cultural, economic and professional activity.</p> <p>4. Familiarizing the practical grammar and analyzing the problems and challenges of effective communication in Hindi. Also develop technical skills in Applied Hindi.</p> <p>5. To enable the student to engage with conceptual issues relating to culture and civilization to identify the power of resistance of Indian culture- to instil the values and the rich tradition of India into the minds of the students. Familiarize some of the eminent writers in Hindi literature and thereby inculcate socio-cultural values.</p> <p>6. To impart skills to critically evaluate and appreciate literary works, to extend this ability to other cultural and artistic forms.</p>	<p>1. To make the student a human being in the correct sense of the word.</p> <p>2. To broaden the outlook of the students and instill in them a sense of confidence and responsibility.</p> <p>3. To make them ready to face the present day world of ambiguities and contradictions.</p> <p>4. To make them empathetic and sympathetic towards fellow human beings.</p> <p>5. To make them understand the society better and ready them to fulfill their duties and responsibilities towards the society.</p> <p>6. To train them in the field of translation so that they can use the expertise thus gained to enrich Hindi Literature through translation.</p> <p>7. To channelize their creative writing abilities towards writing in Hindi so as to enable them to contribute towards Indian Literature.</p> <p>8. To inspire them to use their energy and creative ability for the upliftment of the poor and downtrodden among the society.</p> <p>9. To make them able to communicate in Hindi fluently so that they can perform their duties better when they are outside Maharashtra.</p> <p>10. To train them in the fields of journalism and media writing so that they can choose them as a professional option.</p> <p>11. To give them training in correspondence and secretarial practice in Hindi so that they can use the knowledge whenever necessary.</p>

M. Com. I	Economics for Business Decision	<ol style="list-style-type: none">1. This course is designed to equip the students with basic tools of economic theory and its practical applications.2. The course aims at familiarizing the students with the understanding of the economic aspects of current affairs and thereby prepares them to analyse the market behavior with economic way of thinking.3. In addition to providing an insight into application of economic principles in business decisions, it also intends to widen analytical ability of the students and to provide them a foundation for further study of economics.4. In order to make the study practical oriented, the paper requires discussion of some cases involving the use of concepts of business economics.	<ol style="list-style-type: none">1. Ability to forecast demand in light of changing circumstances and to formulate business plans.2. Ability to chalk out Business Policies.3. Knowledge about Profit Planning and control.4. Skill to analyze effects of Government Policies.5. Understand the different theories in Economics.6. Apply the theory in real business scenarios.7. Understand the economic issues and problems faced by an organization.
M. Com. I	Cost and Management Accounting	<ol style="list-style-type: none">1. To enhance the abilities of learners to develop the concept of Cost and management accounting and its significance in the business.2. To enable the learners to understand, develop and apply the techniques of costing in the decision making in the business corporate.3. To enable the learners in understanding, developing, preparing and presenting the financial report in the business corporate.	<ol style="list-style-type: none">1. It helps in Understanding the Relationship Between Cost Accounting-Financial Accounting and Managerial Accounting.2. It Evaluate The Concept of Management Accounting.3. Helps to Understand The Importance Of Management Accounting For Businesses Computation of Fixed, Variable, Semi-Fixed And Semi-Variable Cost Concepts.4. Analyzes The Relationship Between The Cost-Volume And Profit.5. Understanding of Break-Even Sales Price, Break-Even Sales Volume, The Total Contribution Margin, The Unit Contribution Margin, Margin Of Safety, Security Ratio, Profit Margin Concepts.6. Understanding and computing of Budgeting And Operating Budgets Concepts Computation of Standard Variation Analysis Through Standard Costs.7. Understanding and calculation of Standard Cost Concept.
