THE IMPORTANCE OF SOFT SKILLS IN HIGHER EDUCATION

CONCEPT NOTE:

Soft skills are the mix of social and interpersonal skills, character traits, and professional attitudes that all jobs require. Soft skills can be personality traits or they can be traits obtained through life experiences. Soft skills can tell a lot about how a candidate will interact in the workplace, how they might react under pressure, or what their professional potential is. A lot of employers prioritize hiring employees with the right soft skills over hard skills. Soft skills are very important to the graduation students because the graduated students seek the job after their education is completed.

SUB-THEMES:

• Time management Skills • Communication/Speaking Skills • Adaptability Skills • Problem-solving Skills • Teamwork Skills • Creativity Skills • Leadership Skills • Interpersonal Skills • Work ethic • Stress Management Skills
